DETAILED ACTION

Allowable Subject Matter

1. The indicated allowability of claim 15 is withdrawn in view of the newly discovered reference(s) to U.S. Patent 4,191,400 to Smith. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 13 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Smith (4,191,400).

Smith discloses a web guide assembly comprising a web guide 24; a support mountable to a vehicle body, the web guide is rotatable about a first axis extending along the support and a ball joint connecting the web guide to the support, the joint is fixed to the support along the first axis and pivotal along a second axis transverse to the first axis, see figures 2 and 3. The web guide comprises a D-ring.

Allowable Subject Matter

4. Claims 17 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
